INTRODUCTION

Award-winning awnings from SunnCamp

For more than forty-three years, SunnCamp has been at the forefront of designing and manufacturing caravan awnings, motor awnings, tents, trailer tents and a wide range of outdoor products. Our decades of expertise ensure that every item we produce is thoughtfully engineered, dependable, and offers outstanding value—perfectly tailored for your adventures.

Camping and Caravanning Club Owner Satisfaction Awards

We are delighted to share that SunnCamp continues to earn exceptional recognition within the Outdoor Leisure Industry. In 2025, we proudly received the award for “Best Caravan Porch Awnings” and achieved Highly Commended status in the “Best Full Awnings” category. These accolades are a testament to our commitment to quality, innovation, and customer satisfaction.

FABRICS

Innovative fabrics designed to support your outdoor adventure

ACE-TECH 75D/150D FABRIC

Our **ACE-TECH** fabric is available in a range of weights and is coated with multiple layers of a specialised PU waterproof treatment. Each layer is evenly and precisely applied to ensure long-lasting protection from the elements. Our **75D ACE-TECH** fabric is a polyester-based material and our **150D ACE-TECH** fabric is an oxford-based material.

PRO-TEK 300D FABRIC

Developed by SunnCamp’s technical team, our **PRO-TEK 300D** fabric is a high-density, super-strength 300-denier material that delivers exceptional durability. It offers over four times the tensile strength of standard 75D fabric. Continuous improvements in weaving and coating technology allow us to apply our waterproof layers evenly, maintaining the fabric’s flexibility, softness, and ability to hold its shape. The result is a robust, high-performance fabric that provides outstanding protection.

PRO-TEK 300D ERP FABRIC (Enhanced Roof Profile)

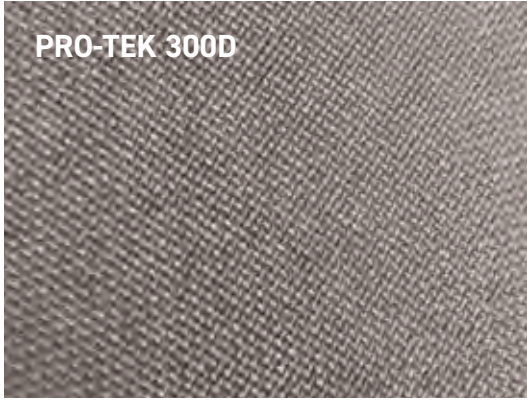

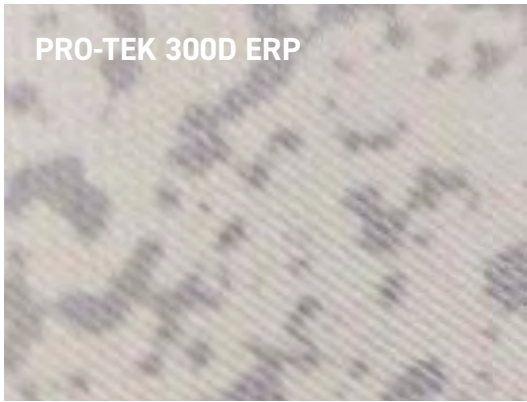

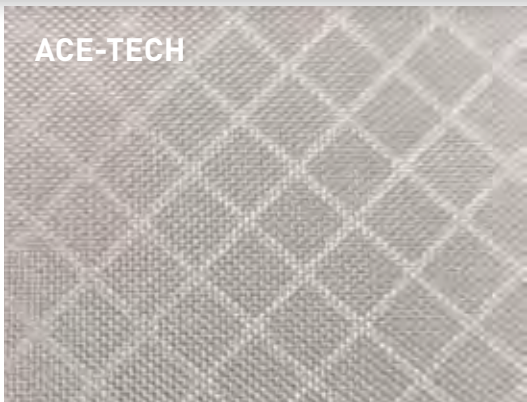

Our **PRO-TEK 300D ERP** roof fabric combines durability and style, elevating both the appearance and performance of our products. Made from high-density, super-strong 300-denier material, its patterned finish not only enhances the overall design but also creates a warm, inviting atmosphere.

150D OXFORD RIPSTOP FABRIC

A high-quality fabric providing improved protection from the weather and UV light. The ripstop fabric has been woven using a special reinforcing technique where reinforcement threads are woven at regular intervals in a crosshatch pattern making the fabric more resistant to tearing.

AIR VOLUTION TECHNOLOGY/POLE VOLUTION FRAME SYSTEM

AIR VOLUTION

Effortless pitching, reliable structure

SunnCamp's Air Volution Systems are designed to make set up and take down easier. Instead of traditional poles, our Air Volution models use durable inflatable air tubes protected by a reinforced double-layer sleeve. Once inflated and guyed, the Air Volution frame creates a stable, supportive structure.

Simple, Smooth Setup

To pitch your Air Volution product, attach the inflator pump to the air-tube valve(s) and inflate to the recommended 7 psi. Close the valves, secure the guy lines, and you are ready to start your adventure.

Single Inflation System

With several valves available, all the air frame's structural beams inflate together from a single inflation point. Once inflated, the internal isolation valves should be closed to ensure correct operation and to isolate each beam.

Multi Inflation System

Each air beam has its own dedicated inflation point and is inflated independently.

Air Volution Advantages

- Quick, easy pitching and pack-down.
- Strong, low-maintenance inflatable tubes replace traditional poles.
- Many models can be comfortably pitched by one person.
- Provides a stable and supportive frame.

POLE VOLUTION

Easy, efficient set-up

Pole Volution represents SunnCamp's advanced approach to poled awnings and tents. With 43 years of experience in designing and manufacturing camping products, every Pole Volution product is thoughtfully engineered to deliver dependable performance, combining modern styling with the trusted stability of a traditional poled design.

Carefully engineered frames and high-quality materials ensure reliable use, including:

- **Reliable structure** – robust poles and reinforced connections help keep your awning secure in a wide range of conditions.
- **Straightforward setup** – designed for smooth, efficient assembly.
- **Durable performance** – built to deliver.
- **Modern design** – clean lines and a contemporary look that complements today's caravans.

Whether you're a weekend adventurer or a long-term traveller, **Pole Volution** brings innovation and reliability together.

LIGHT UP YOUR SUNNCAMP WORLD

See www.sunncamp.co.uk – Available to purchase from your Supplying Dealer

DUAL COLOUR LED LIGHTING SYSTEM

Our LED Lighting System is compatible with the integral PVC pockets built into most of our Air Volution products' storm bars. It is also compatible with our Pole Volution products, where attachment is via the magnets or cable ties supplied. For inflatable products that do not have storm bars with integral PVC pockets – or where additional lighting is required – you may purchase our optional storm bar sets with integral PVC pockets (see individual product entries for availability and codes) or LED Light Sleeves (DT0101), which can be zipped onto your product's inflatable storm bars.

OPTIONAL STORM BAR SETS

Where available, optional storm bar sets include integral PVC pockets compatible with our LED Lighting System. (See individual entries for details).

OPTIONAL LED LIGHT SLEEVES (DT0101)

If you have an older SunnCamp Air Volution product or model where the storm bars do not include integral PVC pockets, our LED Light Sleeves provide a solution. These sleeves simply zip onto your existing storm bars.

OPTIONAL LED LIGHTING SYSTEM STARTER PACK (EL3001)

- Choice of cool white or warm white light
- Constant mode with multiple brightness settings
- Multiple speed modes with adjustable brightness
- 2 x 1m LED light strips with magnets and cable ties
- 1 x remote control (with in-line sensor)
- 1 x 5m cable/1 x 3m cable/1 x 60cm cable/1 x 30cm cable
- 1 x UK plug (approx. 1m cable)
- 1 x 12V cigarette socket (approx. 3m cable)

OPTIONAL LED LIGHTING SYSTEM – ADD ON KIT (EL3002)

- Choice of cool white or warm white light
- Constant mode with multiple brightness settings
- Multiple speed modes with adjustable brightness
- 1 x 1m LED light strip with magnets and cable ties
- 1 x 3m cable/1 x 60cm cable/1 x 30cm cable

PREMIUM ACCESSORIES TO ENHANCE YOUR OUTDOOR SPACE

View full details at www.sunncamp.co.uk – available to purchase from your Supplying Dealer

Optional Luxury Padded Breathable Awning Carpets
(see individual product entries for availability/product code)

Complement your awning with our specially woven luxury awning carpets, adding a touch of extravagance to your outdoor adventure (design/pattern may vary).

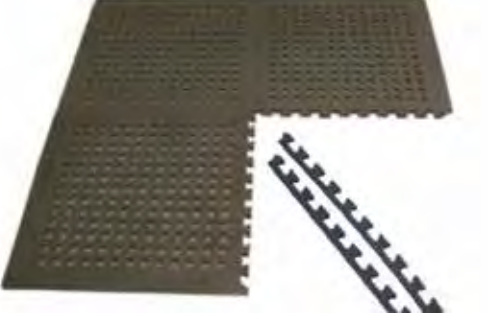

Optional Storm Bar Kits with integral PVC pockets
(see individual product entries for availability/product code)

Storm bar kits are available for various models, providing additional rigidity and support during windy or adverse weather conditions.

Optional Multi-purpose Eva Mat Flooring – includes edging (JW7000)

Enhance your awning with our Eva Mat Flooring. Each tile is 61 l x 61 w x 1.2cm h and is supplied in a pack of four with eight edging strips.

Optional Breathable Awning Groundsheet (see individual product entries for availability/product code)

A breathable groundsheet is available for most awnings. It can be used on its own or underneath your Luxury Awning Carpet or Eva Mat Flooring to help keep them clean.

Optional Footprint Groundsheet (see individual product entries for availability/product code)

If your tent or awning features a sewn-in groundsheet, you can purchase a separate footprint groundsheet to place beneath it, helping to keep the main groundsheet clean and protected.

Optional Canopy Poles (DT0032)
Many SunnCamp awnings and tents feature a canopy door option. To use this feature, you will need our optional steel canopy poles. Adjustable height 1.5m-2m.

Optional Heavy Duty Steel Upright Canopy Pole (DT0031)
This extra-strong canopy pole features an adjustable height of 100cm-200cm. Sold individually. Two poles are required to canopy-out your awning or tent door.

PREMIUM ACCESSORIES TO ENHANCE YOUR OUTDOOR SPACE

View full details at www.sunncamp.co.uk – available to purchase from your Supplying Dealer

Optional Buckle-Fit Sun Canopy (SF2004)
See page 27 for additional information

Our Buckle-Fit Sun Canopy simply buckles onto the attachment points sewn into your awning or canopy's flysheet and can be fitted to either side – or both.

- ACE-TECH 75D fabric (waterproof/fire retardant)
- Buckles onto either or both sides of 'SC' porch awnings
- Includes guy lines and pegs
- Includes poles

Optional Buckle-Fit Sun Canopy PLUS (SF2005)
See page 27 for additional information

Our Buckle-Fit Sun Canopy PLUS simply buckles onto the attachment points sewn into your awning or canopy's flysheet and can be fitted to either side – or both.

- ACE-TECH 75D fabric (waterproof/fire retardant)
- Buckles on either or both sides of 'SC' porch awnings
- Multiple setup options
- Max. protected floor space 180cm depth x 390cm length
- Includes guy lines and pegs
- Includes two sets adjustable poles

Optional Swift/Dash Inner Tent (SF1905)
Check individual product entry for compatibility.

Fits following models: Swift Air Extreme SC/Swift Air SC/Dash Air SC/Swift Air Sun Canopy SC/Swift Deluxe SC/Swift Sun Canopy SC/Swift Vero Air Van SC/Swift Vero 260 Van SC.

Optional Roof Lining
(See individual product entries for availability/code)

An optional roof lining is available for many caravan awnings, enhancing insulation, minimizing condensation, and creating a cosier, more comfortable interior.

Optional CASA ANNEXE Inner Tent (SC1000)

Manufactured from high-quality T/C material and finished with a hard-wearing PE floor for enhanced durability.

- Fits: Casa Annexe

Other Optional Inner Tents
A range of inner tents are available including pop up inner tents.
See: www.sunncamp.co.uk for full details

Optional Awning/Tent Tidy (AC63200)

A practical organiser is available with multiple pockets, designed to hang inside your tent or awning to keep small essentials tidy and within reach.

Optional Handy Awning Organiser (SF7601)

With multiple pockets this organiser can be hung inside a tent or awning, keeping small items accessible and off the floor.

PREMIUM ACCESSORIES TO COMPLETE YOUR SUNNCAMP SETUP

View full details at www.sunncamp.co.uk – available to purchase from your Supplying Dealer

12V Electric Pump (AC3000)

For those who prefer a completely effortless setup, our optional 12V Electric Pump (with a 10m cable) offers rapid inflation for your Air Volution awning or tent. Powered by your vehicle's 12V socket, it inflates your product quickly and reliably, cutting out automatically at your chosen pre-set pressure (maximum psi 16).

Air Volution Awning Packing Pads (AC2020)

Designed to fill the gap between the end of your Air Volution awning air poles and your van. Simply slide or wedge the pads between the inflatable air poles and the vehicle side to create a tighter seal, improve roof tension for better water run-off, and help prevent damage to awning fabric or vehicle paintwork.

Webbing Straps with Reflective Strip (Grey - DT0096/Yellow - DT0067)

Your awning comes with guy lines and/or webbing straps (see individual product entry). If your awning does not include webbing straps, these can be purchased separately as an optional extra for use with the awning's built-in sewn-on buckles. They are also available as replacement spares, as webbing straps naturally need to be renewed over time.

Awning Tie Down Set (DT0051)

While we advise taking your awning down if severe weather is expected, this Tie Down Set offers added protection in the event of an unexpected change in conditions. It helps secure your awning during normal use and provides extra stability against unforeseen gusts.

Air Volution Storm Buckles (DT0083)

For older SunnCamp Air Volution awnings/tents—or if you wish to add extra webbing straps—these clever clips attach to the product's existing guy line tabs, allowing the use of our webbing straps (DT0096 / DT0067).

Pole Volution Velcro-on Storm Buckles (DT0082)

For older SunnCamp poled awnings/tents - or when additional webbing straps are desired - these Velcro-on buckles wrap securely around the poles, enabling use of our webbing straps (DT0096 / DT0067).

PREMIUM ACCESSORIES TO COMPLETE YOUR SUNNCAMP SETUP

View full details at www.sunncamp.co.uk – available to purchase from your Supplying Dealer

Additional Quick Fix Bracket Pads (FT3098)

Additional Quick Fix Brackets are available to purchase from your Supplying Dealer for use with our CASA awnings.

Tent Pegs

A full selection of SunnCamp tent pegs is available through your Supplying Dealer. See www.sunncamp.co.uk for full details

Wheel Arch Cover (DT0034)

85(L)cm x 50(D)cm

Platinum Wheel Arch Cover (DT0041)

85(L)cm x 46(D)cm

- Lever action suction caps
- Beading to take figure of 8 extrusion
- Includes figure of 8 (85L cm)

Platinum Double Axle Wheel Arch Cover (DT0080)

164(L)cm x 50(D)cm

- For use on twin axle caravans
- Lever action suction pads
- Beading to take figure of 8 extrusion
- Includes figure of 8 (2 x 85L cm)

Figure of 8 Extrusion – 74cm (DT0070)

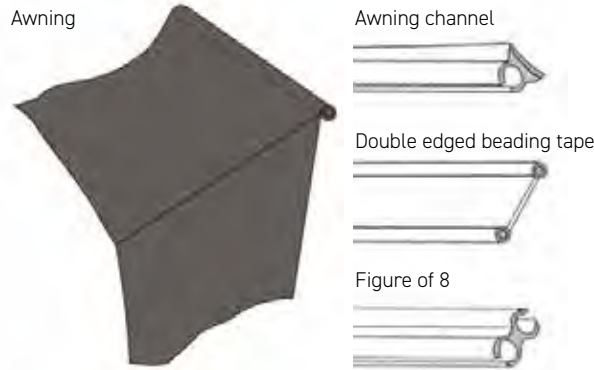

Designed for use with drive-away motorhome or campervan awnings, this accessory connects your awning to your vehicle. The figure-of-8 extrusion forms a secure link by attaching to the awning's beading on one side and your vehicle's awning rail (or another attachment point, such as a C-rail) on the other. When needed, the awning can be quickly detached by simply pulling out the figure-of-8, leaving the awning in place while you drive away

Drive-away Awning Kit (DT0084)

For use with drive-away motor/campervan awnings, our kit comprises of 3 metres of double-sided beading 4mm/6mm/4 x figure 8 (75cm each)

Use this kit to securely attach your freestanding awning to your campervan/motorhome. The kit allows you to quickly detach your vehicle and drive-away while leaving your awning standing. Upon return, simply re-attach your vehicle.

Optional Motor Awning Tunnel Privacy Divider (AC8001)

Compatible with: Swift Van 325 Tall/Low (SF8045/SF8044) and Silhouette 225 Motor Plus (SF7870).

Magnetic Drive-away Adaptor Kit (DT0200)

For use with drive-away motor/campervan awnings, our kit comprises of 7mm beading/1 x 280cm magnetic strip/ 3 x 90cm figure of 8/1 x 4.1m plastic tube (for use if your awning does not have beading).

The long magnetic strip is placed on the flat metal roof of your van, and the figure of 8 strips join the awning to the magnetic strip.

ICON AIR® Full Touring Awning

Compatible with ICON AIR® ANNEXE [SI1000]

Features:

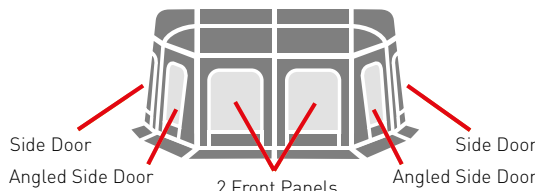

- Air Volution Single Inflation Technology
- 300D PRO-TEK Fabric/300D Enhanced Roof Fabric (waterproof/fire retardant)
- Secondary mesh on both side doors
- Fully removable panels (all with veranda option) dependant on size (950 - 975 = 4 panels, 975 - 1100cm = 5 panels)
- Zip-in mesh panels provided for all zip-out panels
- Optional annexe available (SI1000)- fits either side of awning (includes twilight inner tent)
- Multi-zip curtains on all windows
- Vertical storm pole pockets
- LED light pockets (for optional LED Lighting System) on all roof bars
- External peggable mud wall for extra weather protection (PVC mesh)
- Pre-attached storm buckles and reflective strip webbing straps
- Draught skirt with ventilation panels
- Includes 4 x packing pads
- Manual pump included
- Carry/storage bag
- Pegs for main pegging points

Expertly designed with removable panels and annexe options to suit a variety of needs

Add space with our optional ICON AIR ANNEXE (SI1000)

Vast living space

Floor Plan - showing Optional Annexe

Our ICON AIR® is constructed using our **Air Volution Single Inflation Technology** and manufactured with our durable, high-density **300D PRO-TEK** fabric, offering four times the tensile strength of standard materials. Its generous 325cm depth creates a spacious, sheltered living area that effectively doubles your caravan's footprint. Large, crystal-clear windows with multi-zip privacy curtains keep the interior bright and airy. All panels can be used veranda-style, zipped out, or replaced with the included zip-in mesh panels. An optional **Air Annexe** can be fitted to either side, providing extra storage or sleeping space.

Includes Pump with gauge and dump valve

Includes Storm Buckles & Straps

Includes Veranda Pole x1

Includes Draught Skirt

Includes AIR Flow Zip In/Out Ventilation Panels

Includes Packing Pads x4

Optional Extras Available:

- Optional annexe - includes twilight inner tent (SI1000)
- Optional roof lining (see table entry)
- Optional luxury carpet (see table entry)
- Optional veranda pole (DT0091-B)
- Optional LED Lighting System/Add-on Kit (EL3001/2)
- Optional 12V electric pump (AC3000)
- Optional wheel arch cover (DT0034/41/80)
- Optional additional packing pads (AC2020)
- Optional storm poles (DT0052-B)

ESTEEMED AIR® Full Touring Awning

Compatible with ESTEEMED AIR® ANNEXE (SI1000)

Features:

- Air Volution Single Inflation Technology
- 300D PRO-TEK/300D Enhanced Roof fabric (waterproof/fire retardant)
- Removable interchangeable side panels with secondary mesh
- Fully removable panels (all with veranda option) dependant on size [950 - 975 = 4 panels, 975 - 1100cm = 5 panels]
- Optional annexe available (SI1000) - fits either side of awning (includes twilight inner tent)
- Multi-zip curtains on all windows
- Vertical storm pole pockets
- LED light pockets (for optional LED Lighting System) on all roof bars
- External peggable mud wall for extra weather protection (PVC mesh)
- Pre-attached storm buckles and reflective strip webbing straps
- Draught skirt with ventilation panels
- Manual pump included
- Carry/storage bag
- Pegs for main pegging points

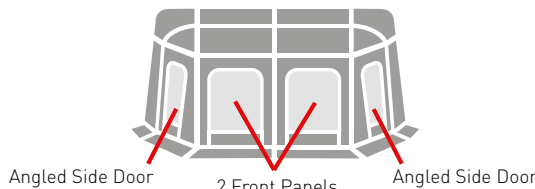

A flexible set up with removable panels and annexe options, helping you create the ideal living space for your outdoor adventures

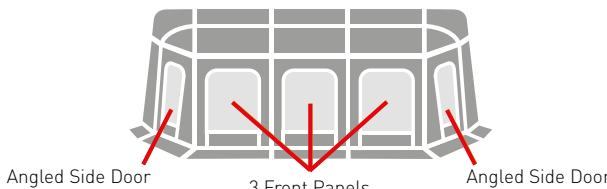

Add space with our optional AIR ANNEXE (SI1000)

Create extra shade, sheltered cooking space, or an extended relaxation area

Buckle-Fit Sun Canopies

Easy to set-up and ideal for creating a tailored outdoor area, these ingenious sun canopies allow you to extend your protected outdoor space whenever needed. Each canopy simply buckles onto the attachment points sewn into your awning or canopy's flysheet and can be fitted to either side – or both.

Our **Buckle-Fit Sun Canopy PLUS** offers multiple configuration options and can be pitched in a variety of ways to suit your specific requirements. Please see individual entries for compatibility.

Features:

- ACE-TECH 75D fabric (waterproof/fire retardant)
- Buckle-Fit to your awning/sun canopy
- Carry/storage bag
- Guy lines
- Pegs

Classic design – adaptable living

Our **Casa**® full touring awnings deliver outstanding value, combining a traditional, dependable poled design with long-lasting durability caravanners trust. Expertly manufactured from our robust **300D PRO-TEK** fabric, the **Casa** is packed with practical features, including multi-zip curtains, side doors with removable secondary mesh panels and full compatibility with the **Casa Annexe**. The awning also includes two fully removable front panels, each offering a veranda option for added versatility.

For ease of pitching and enhanced stability, the **Casa** comes with pre-attached webbing straps, a draught skirt and a carry/storage bag. A selection of luxury optional extras is also available, allowing you to personalise and elevate your outdoor living space.

The Casa awning has been designed as a Full Touring Awning, we do not recommend it be sited for permanent use.
